

# An intimate coffee break on your *private terrace*

## THE GARDEN IS AN EXTENSION OF YOUR PRIVATE TERRACE

The Château de Limelette can provide you with a conference experience and facilities perfectly tailored to your requirements. We're not talking about our very few friends who wanted to personalise it to the extent of taking a short cut through the pool to the car park, no doubt to test our laundry service!. No, we're talking about most of our guests, those who come because they know they will receive a warm, attentive and considerate welcome, accompanied by a smile. At Château de Limelette, you are not just one guest among others: you can feel like the only guest in the world in an utterly tranquil environment. There are intimate terraces where you can have coffee away from prying eyes, and private rooms where you can have lunch without fear of eavesdroppers.

## PRICE/QUALITY RATIO

As a shrewd manager, you've checked out the reality of our price/quality ratio. Our rates are far from being the highest, and yet, at Château de Limelette, the biscuits are crisp, the orange juice is freshly squeezed, and the gingerbread is home-made. All our catering is meets these same exacting standards.

## 16 COMPLETELY REFURBISHED MEETING/CONFERENCE ROOMS

Some of you are unaware that all our meeting/conference rooms have been refurbished. They are, of course, all equipped with the basic equipment and facilities necessary for a successful meeting/conference, but they also have a private terrace giving access to the garden. So you can choose between putting on the air-conditioning or opening the window and letting in the scents of summer and the sounds of twittering birds. There's no chance of private conversations being overheard: the only eavesdroppers are herons, deer and squirrels.
